

k-love provides me with local christian events.

if we did not have k love in our community we could not have any christian music station here.

k love is in the public intrest more than any other radio station. they do not sell commercials to finance them. we support k love!

my whole family can listen to this station. with other stations i have to change the station when a song comes on that i do not want my children to hear. because it has offensive lyerics, or bad language.
